Top Tips for Choosing the Perfect Bedframe

Getting The Right Measurements

Ideally, leave at least 50cm of free space around the bed to ensure you can walk around easily.

Choosing The Right Bed Base

There are two main types of bed base you can choose from: a divan base or a bedstead (also known as an open bedframe or a slatted base).

Material

The three main materials are wood, metal or upholstered. Wooden beds are more traditional and long-lasting. Metal beds are known for their toughness and resilience, as they are far less susceptible to water, insect or fire damage. Upholstered bedframes often feature padding for added comfort. With so many colours and fabrics to choose from, these beds offer a versatile and stylish option for bedrooms.

How to Test a Bed In the Store:

To test, adopt your usual sleeping position and try to spend between five and ten minutes on the bed to ensure you have found the perfect bed for you.
