## **Top Tips for Choosing the Perfect Dining Table**

### *Space*

Measuring your space in the dining area is the first step to choosing suitably sized furniture.

### *Smaller Area*

Top tip: A round table tends to use a smaller space more efficiently.  
An extendable table may help you to use space effectively.

### *Large Dining Room*

Extending dining tables are an ideal solution for larger spaces, with some tables allowing up to 12 people.  
Ask one of our sales executives to find out more on our large dining tables.

### *Material*

Hardwood dining tables are extra durable and will last for years to come.  
Glass-top tables are perfect for smaller dining rooms as they give the illusion of more space.  
Ask a member of our team about our heat resistant ceramic top tables.

### *Top Tip:*

We recommend leaving a space of 70cm around each side  
of the table to allow for movement around the table.
